

Set the Conditions for Deeper Learning

Set Up
Every Student
for Success

Believe in the potential of every student, and make sure they have the support—and belief in themselves—to realize it.

Make
Student Work
Public

Celebrate the accomplishments of students and showcase the learning process in front of a meaningful, real-world audience.

Encourage
Peer-to-Peer
Learning

Everybody has something to teach and something to learn. You just have to ask.

Increase
Student Voice
and Choice

Give students opportunities to speak their minds and the power to weigh in on important school and classroom matters.

Focus on
the Process
of Learning

Design learning experiences intentionally so that students will learn as much from the how as from the what.

Make
Learning
Relevant

Connect learning to real-world topics that matter in students' lives.
